

# About Basefarm, an Orange Group company

Basefarm is a European Managed Service Provider. We create market leaders by integrating the key competencies for digital transformation – big data, cloud computing and information security, into one service offering. Our delivery model covers everything from ”idea to cable”; we provide strategic advice, implementation projects and infrastructure operations under one management and on any cloud. Basefarm was founded in 2000 and our team of 550+ top engineers and advisors are servicing global clients from our European offices and data centers in Norway, Sweden, The Netherlands, Germany and Austria.

Basefarm was top ranked in Whitelanes IT Outsourcing study Nordics 2018 and was recognized by Gartner as a Cool Vendor in the European Cloud Computing Market 2015 for our unique methodology in application management. The unbelievable Machine Company \*um, part of the Basefarm group, was named Innovator of The Year 2018 by Analytics German business magazine eins Wissen and Data Analytics Leader by ISG Provider Lens Germany 2018.

In August 2018 Basefarm was acquired by the Orange Group, a leading global telecommunications operator, to reinforce the cloud expertise of Orange Business Services, its enterprise division.
